Best Curtainsider! - Best Brand 2019

KRONE wins in category curtainsiders

Krone products placed three times on the podium in the reader survey "Best Brands 2019". Krone took the first place in the "curtainsider" category; in the previous year, Krone was still in second place here. Also pleasing: Krone continued to occupy second place in the "cooling body" category, and last but not least, Krone climbed to second place in the trailer axle category after finishing third in 2018. On behalf of the Krone team, Dr. Frank Albers accepted the prizes and thanked customers for their enormous trust in the Krone brand. "We see the excellent placings in three categories as proof of our commitment to product quality and innovation. Likewise, we take this result as an incentive for the next survey, says Dr. Albers. As publisher of the trade journals "trans aktuell", "lastauto omnibus", "Fernfahrer" and the portal eurotransport.de, the publishing house ETM (EuroTransportMedia) asked its readers about the Best Commercial Vehicle Brands 2019 (Best Brands 2019). Around 8400 readers took part in the survey this year.
