15 Dry Liner for PPTL

Professional equipment for demanding tasks

Herzlake/Werlte, March 2021 – Mesut Kaya, authorised signatory of Pro Performance Transport & Logistik GmbH (PPTL) and Isa Alakir, IT Management at PPTL, used the collection of 15 new Dry Liners to visit the Krone site in Herzlake, where the Dry Liners were manufactured. Krone Regional Sales Manager Philipp Werth and Björn Budde, Krone Sales Manager Germany, welcomed the guests from Dieburg in southern Hesse and thanked them for the renewed order. Visibly impressed by the ultra-modern, partly robot-supported production, the guests then drove to the Krone site in Werlte, where Mesut Kaya and Isa Alakir were also able to take a look at the high-tech coating centre.
Mesut Kaya emphasised that the PPTL philosophy is based on trust and reliability. "We convince our customers with safe and punctual deliveries. Regardless of whether it's general cargo, fixed-date freight, express or even special trips and hazardous goods - we have the right solution for every transport task in our extensive fleet, from small vans to articulated trucks, swap body vehicles to curtain or box trucks. We currently use around 150 vehicles; our drivers have many years of professional experience and always keep up to date with regular training and further education. It goes without saying that we also rely on the best possible quality for our equipment. After the very good experiences with Krone curtainsider trailers, we now also rely on Krone Dry Liners, which we can use excellently for food and mail transports, for example. With Krone, the price-performance ratio is right; we also like the professional support and competent advice from Mr Werth very much. A trusting relationship has developed here over the past years."

About PPTL
Founded in 2012, PPTL specialises in postal, food and general cargo transport. The fleet currently consists of 150 vehicle units, which are used by Deutsche Post, DB Schenker, DSV and Rewe, among others. The company is based in Dieburg and currently employs around 100 people.
