ELFLEIN opts for KRONE Trailer

ELFLEIN GmbH, a long-established logistics company based in Bamberg, has placed an order for 76 vehicles with KRONE Trailer. The Mega Liners will be delivered in a 2-axle version with 20 tonnes of aggregate power and a modern tyre refill system.

Founded in 1932, the family-owned company ELFLEIN now employs around 1,200 people and operates a fleet of 450 tractor units. Specialising in the transport of automotive, food and paper products and the use of special equipment, ELFLEIN has earned an excellent reputation in Germany and Europe. True to the company motto 'The driving force in logistics', the focus is on a combination of reliability, efficiency and tailor-made solutions.

'The cooperation with KRONE has been extremely reliable and cooperative from the very beginning – just as one would wish. We are particularly pleased that we were able to organise the transfer of the vehicle in a sustainable manner – with environmentally friendly transport by train,' explains Stefanie Kotschenreuther, Managing Director of Marketing and Sales at ELFLEIN.

"We are very pleased about the trust placed in us by ELFLEIN. The order shows that our products also perform well in tough practical use and that our service and consulting concept meets the requirements of our customers. We would also like to highlight the delivery of the vehicles by rail – a further step towards making logistics processes sustainable and resource-efficient," adds Dr. Frank Albers, Managing Director of Sales and Marketing at KRONE Trailer.

With this order, the commercial vehicle manufacturer from Emsland once again underlines its market position as one of the leading manufacturers of commercial vehicles for the transport and logistics industry.
