KB Event expands KRONE fleet with 60 bespoke Dry Liners

Event logistics specialist KB Event has taken delivery of 60 new KRONE Dry Liner box trailers for use across its UK and European operations.

Based in Nottinghamshire, KB Event provides logistics and transport services for the live events, exhibitions, broadcast, entertainment and touring industries. The company now operates a fleet of 200 KRONE trailers.

Designed to meet KB Event's operational requirements, the new trailers incorporate a number of bespoke features to improve loading flexibility, cargo security and vehicle operation.

Among the key specifications is dual ride height, allowing the trailers to operate with different tractor unit coupling heights while maintaining a level load platform, together with dedicated ramp carriers designed to accommodate 3,750 mm x 1,000 mm loading ramps.

The trailers also feature KRONE's keyhole side wall loading system, providing multiple load restraint and load bar positioning options to help secure a wide variety of event equipment safely and efficiently.

An insulated roof helps protect valuable cargo from temperature extremes, while full-length internal LED strip lighting provides excellent visibility during loading and unloading, particularly in low-light conditions. The trailers are finished in KB Event fleet livery.

The specification also includes premium floor sealing, additional LED loading lights, integrated load restraint equipment and KRONE's 10-year anti-rust-through warranty.

"We've worked closely with KRONE to develop a trailer specification that reflects the specialist

demands of our operation," says Richard Burnett, CEO of KB Event. “The trailers combine the durability and build quality we expect with a number of bespoke features that make day-to-day loading, unloading and transporting equipment more efficient for our teams and for the crew onsite.”

He continues: “Our customers depend on us to deliver valuable equipment safely and in excellent condition. These new trailers help us maintain high standards while providing the flexibility and reliability we need to support a busy events schedule throughout the UK and Europe.”

Chris Coxon, Regional Sales Manager at KRONE Trailer UK, says: "KB Event has been a valued KRONE customer for many years and this latest delivery demonstrates the strength of the relationship between our two businesses.

“By working closely with the customer, we've been able to specify a trailer that meets its operational requirements, providing a combination of durability, practicality and long-term reliability.”
