2.300 Krone swap bodies sold to Seaco Global

Hermès Germany modernizes infrastructure with high-strength Krone swap bodies

Werlte, July 2017. Hermès Germany has spent a hundred million Euros on new locations. Seaco Global, known as a specialized division of the world's biggest container rental operator, has enlarged its fleet with the addition of 2.300 Krone swap bodies for rental to Hermès. The first 300 units were handed over in Bad Rappenau at the opening of Hermès' logistics hub - eight additional hubs are to follow. Volker Stenzel, who is Head of Equipment & Carrier at Hermès Germany, emphasizes the importance of their choice to partner with Seaco Global and Krone. "A fresh infrastructure with reliable products perfectly matches the customers' requirements and makes shipping safer, faster and smoother." Seaco Global's fleet is made of 90 % swap bodies equipped with shutter doors. Hermès mainly uses the codified swap bodies for road and rail transport. "The fleet of Krone swap bodies Seaco Global rents to Hermès have reinforced side panels, which guarantee strength and longevity in the rental business," says Ingo Geerdes, Head of Key Account Management, Krone Fleet & Krone Used. Geerdes, Volker Stenzel, Head of Equipment and Carrier, Hermès Germany GmbH, Stephan Richter, Managing Director of National Rental by Seaco and Bernd Brüggen, Managing Director of Krone Commercial Vehicles Group, happily concluded the contract.
